## Education

### Technocrats Institute of Technology - ( Excellence ) Bhopal, M.P

2018 - 2022

- Bachelors of Technology - (Computer Science and Engineering)

## Work Experience

### Frontend Developer -( React.js )

Apr'22 - Aug'23

#### Cedcoss Technologies Pvt Ltd , Lucknow

Worked in a robust Cedcommerce Team , contributed in Integration Projects such as Shopline\_Catch / Shopline\_amazon and a Inhouse project cHAP (common home admin panel).

##### > cHAP - common home admin panel

- Developed a common home admin panel for all the connected marketplaces.
- Logged in with the selected marketplace , the admin panel shows all the necessary Information about the Seller.
- Admin panel contains features like Dashboard , Seller , Manage FAQ's , Account , Metric chart, Uninstallation.

##### > Shopline\_Catch Ecommerce Integration

- Developed Customer Relationship management (CRM) system using React.js in Shopline for Catch marketplace.
- Includes Dashboard , Product List , Order List and Configuration.
- The dashboard provides sales insights for the products featured on the app and the current status of orders within the catch marketplace.
- The dashboard features charts and graphs that categorize sales on a daily, monthly, and yearly basis.
